

# Lotterywest supports Shire of Dandaragan

THE Shire of Dandaragan has been successful in receiving two grants from Lotterywest.

The shire was pleased to host Agricultural Region Member MLC Brian Ellis, who presented the cheques to the community on behalf of the Government of WA and Lotterywest.

The grants are to assist the Jurien foreshore redevelopment and to refurbish the Dandaragan office in the Dandaragan Community Resource Centre.

The Jurien grant will assist the community by supporting the purchase of some new playground equipment and adult fitness equipment for the area.

This grant was in excess of \$190,000.

The Dandaragan Community Resource Centre will benefit all users of the centre by supporting the installation of glass, sliding automatic doors and upgrading the front area for meetings and conferences.

The Dandaragan Community Resource Centre steering committee has put in a great effort in obtaining this grant and should be congratulated in being funded for \$120,000.

“We look forward to working with Lotterywest and the community in completing these projects and are appreciative of the support from Lotterywest grants to implement initiatives to further develop the shire,” shire economic community project officer Nicole Reichelt said.
