

# Cheque a boost for centre

Directions and the Caversham Training and Enterprise Centre are \$5000 richer thanks to a cheque from the WA Department of Communities. Presenting the cheque to the group, Brian Ellis MLC said the program,

that helps young people who often fall through the cracks of the justice and education systems, was a much needed service. Karen Brisbane and Sharon Granger from Directions applied for the grant to assist the centre with

education supplies and equipment for rural skills training. Mr Ellis remarked how the current school system does not suit everyone and told the centre's young people that his own son preferred the hands-

on aspects of the family farm more than classroom learning. The Enterprise centre staff were thrilled to receive the cheque, stating that in the current economic climate it was much harder to secure funds.
