Funds for Enabling Women project

LAKE Grace Community Resource Centre (CRC) was thrilled to be successful in its grant application submitted to the Department of Communities for funding to conduct an 'Enabling Women' project.

Agricultural Region Member Brian Ellis MLC was in Lake Grace on Friday, July 15, to present the \$5000 cheque to CRC committee and staff.

Mr Ellis commended the CRC on its application and said it was good to see a day being planned for the women of the agricultural region.

He said with the recent drought affected downturn, women were busy behind the scenes trying to hold things together and their needs had at times been overlooked. The day is centred on providing support for women in their cottage industries.

Guest speakers would provide inspiration, advice on taxation responsibilities, business planning tips, accounting advice, banking options available and marketing tools. Morning tea and lunch would be provided along with day-care facilities.

Thirty places are available for women to attend this day. The CRC welcomes any inquiries from people who are interested.
